1. Intro

The Basics

Including Audio/Video

2. Outro

1. Intro

The Basics

Including Audio/Video

2. Outro

First page

subtitle

- ▶ You say **yes**
 - ▶ ...
- ▶ I say

$$e^{j\pi} == 1?$$

Second page

1. You say goodbye
2. and I say

$$X(\omega_k) = \sum_{n=0}^{N-1} x(n) e^{-j2\pi kn/N} \quad (1)$$

$$z \in \mathbb{C} \quad (2)$$

Further details

Multimedia package test: can you hear this?

Since so far only Adobe has implemented embedded AV playback, you will need to use Acrobat as the viewer (haven't tested on Windows, but on OS X neither Preview nor Skim could play them).

1. Intro

The Basics

Including Audio/Video

2. Outro

General block title

An idea¹

Example (ex. 1)

For example ...

Alert title

Or an alert!

¹don't use titles if not needed

Example of a table

Name	x	y
α	8	10
η	9	9

You can also omit the footer of a page

How to include an image

You can insert images the traditional \LaTeX way

Figure: Who's logo is this?

Absolute positioning

Or you can use absolute positioning, via the `texpos` package

Using columns in a frame

This is content of the first column. You can use as many columns as you like, using the `columns` environment in `beamer`

In the second column you can do whatever you want, like adding an image for example.

First Extra slide

This is an extra slide, so it won't affect the page count displayed at the bottom of the main presentation. Basically, the page counter is reset here.
